## Letter From the Chairman and CEO

Dear Team Herbalife,

We're riding high after an amazing Herbalife Honors 2011 and Mark Hughes Bonus Awards event, where each of our top 10 Herbalife Independent Distributors received a bonus check in excess of US\$1 million for the first time in company history.

Honors 2011 was filled with inspiring presentations by Herbalife leaders, productive forums and spirited celebration. We have already started planning the 2012 President's Summit and Mark Hughes Bonus Awards in Los Angeles, so make sure you're on track to qualify. There might be a bonus check waiting for you there.

The excitement just keeps building. We recently launched HerbalifeSports.com and its bold design and interactive features really capture our commitment to Herbalife-sponsored athletes. Did you know that an Herbalife-sponsored athlete in India recently won the Cricket World Cup? Another Indian Herbalife-sponsored athlete climbed to the top five of the world badminton rankings, and legendary women's boxer M.C. Mary Kom, also sponsored by Herbalife, is expected to medal in the upcoming Olympics. In Europe, two Herbalife-sponsored soccer teams – Schalke 04 and FC Barcelona – advanced to the semifinals in the UEFA Champions League, and FC Barcelona emerged as champions. The tournament is the most prestigious soccer tournament on the planet after the World Cup. Be sure to take a look at HerbalifeSports.com; you will be very proud of Team Herbalife.

We've also just launched Herbalife24, a revolutionary performance nutrition line for athletes like the Herbalife-sponsored pros on our team as well as weekend warriors. All athletes have unique nutritional needs and Herbalife24 is a fully customizable performance nutrition line. The excitement over the products is immense, and we believe they will help millions reach their performance goals.

All of this great momentum in the Herbalife Decade is paving the way for even more success. Everything we do is meant to help you accomplish more than you ever thought you could. I hope each one of you attends our next Extravaganza. Bring as many people as you can and let them discover a future full of possibilities, because our company is driven by ordinary people doing extraordinary things.

The best is yet to come,

MICHAEL O. JOHNSON

Creating Healthy Active Leaders

# NEXT GENERATION

**T**here are no signs on the building where President's Team members Mark and Jill Addy operate their Nutrition Club, but the energy from inside pulls you in. There, you're met with blenders whirring, hip music blasting, and people chatting, drinking shakes, sharing Herbalife presentations on their laptops or meeting with their coaches.

When Mark and Jill started their Herbalife business six years ago, they worked toward the Global Expansion Team (GET) via the traditional methods. But after a period of little growth, they realized that in order to keep moving up in the Marketing Plan, they had to change something.

"I just had to figure out a way of doing the business that fit my personality and the personality of my organization, which is generally Gen H, a young generation of Distributors with healthy active lifestyles," says Mark. So when he heard about the Nutrition Clubs at the 2009 Herbalife Extravaganza in Atlanta, he was intrigued.

Although Mark confesses that he didn't understand the concept of the Clubs, he and Jill did like the idea of having a social setting and a sampling center functioning as an entry point for their prospects to become either customers or Distributors.

He and Jill started learning the skills needed to operate a Nutrition Club, touring the traditional home and non-residential Clubs and asking questions. After covering these steps, they got all the documents required from Herbalife, went through all the Herbalife Nutrition Club® rules and contacted the city to obtain the licensing they needed.

"It was pretty straightforward. Once we had the go-ahead, we just had to do our homework," Mark explains. "We understood that the Nutrition Club would funnel people into the office – which is where the business is done. By adding the social space, Distributors could bring their friends to experience that first taste of Herbalife."

Another way they get people down to the Club is by hosting a lot of healthy active lifestyle events.

"Some mornings we do a stretching breakfast. We've done things like a 5K turkey trot on Thanksgiving or a free salsa class on a Saturday night. A healthy, active lifestyle keeps it fun for the team because they're working out, doing what they want to be doing anyway, and they're using that to promote their business," Mark points out.

But Mark believes success requires more than simply having a Nutrition Club. "My goal is to duplicate successful Distributors, duplicate leadership. First I want to see you build a stream of income by building up your skills and getting to the trainings, before you talk about going and plunking down an investment, and signing a lease. ... Learn everything you need to learn about Herbalife and then, if you want to open a Club: Fantastic!"

"We got to President's Team with traditional Herbalife business methods," he continues, "and the Clubs just funnel more people into that structure. Obviously it creates volume; it creates an experience and a space that people want to come to, they feel good in, and they stick around longer. There's a lot of benefits of the Club, but to me, the Club is a funnel into Herbalife, either as a customer or a Distributor."\*

## NEW CHAIRMAN'S CLUB MEMBER

## Congratulations to Dieter & Elaine Klander

Back in the mid-1980s, Dieter and Elaine Klander were highly successful in their careers as a sales director and interior designer. But the one thing they did not have was quality time for themselves and their two young children. "We had all the money but no time, and we were quite desperate to change that. ...We just did not know how," stated the couple.

When they first learned about the Herbalife business opportunity they were skeptical but curious. They decided to send their personal assistant to Los Angeles to establish how legitimate the company and the opportunity really were. The feedback was so strong that they decided to become Distributors when Herbalife opened in the United Kingdom.

"When I tried the products and followed a healthier, more active lifestyle, I lost weight," said Dieter. He gained fantastic energy and everybody they knew wanted to learn more. "Then 12 of us qualified for an evening meal with Herbalife founder Mark Hughes. This event was incredible and inspiring and for us, the real beginning of our journey."

Dieter and Elaine worked part time for the first year. Their second milestone came when they qualified for the first-ever satellite conference to be screened from Los Angeles. "The event was unbelievable. In the evening, we went to Mark's spectacular home and sat with him in the kitchen whilst he made tea for us. I remember Mark saying, 'There are three things I want you to remember when you get back to the U.K.: 1) Talk about Herbalife at every given opportunity. 2) Show people how we can change their lives for the better with the products and the business opportunity and 3) never ever quit doing that!'" said the happy couple.

"We became full-time Distributors when our income from Herbalife replaced our existing earnings," they said. Since then, Dieter and Elaine have built a highly successful international business with organizations all over Europe, Asia, North and South America and South

Africa. "With the incredible leadership, the training and support systems in place today, success is truly possible for everyone," they agreed. "We want to thank Herbalife for their support, the vision and the leadership provided. ...We want to thank our organization for being committed to their vision, congratulate them for their dedication and hard work and, above all, thank them for all the fun we have together. As a team, we shall continue to grow according to our dreams!"\*\*†

Moreover, he says, "I love helping people with their health and their business as Herbalife Independent Distributors. I help people duplicate what I did for my business so

“Because of Herbalife, I am able to dream again.”

## Hung Fong Chiu & Li Ping Xie

Hung Fong Chiu and Li Ping Xie came to the United States not knowing much English but having the desire for the American Dream. Hung Fong worked long hours in a restaurant to achieve that dream. It was very strenuous labor, and after three decades of such work, it became hard on her health.

Then she answered an Herbalife ad in her local Chinese newspaper. She tried the products and found her health improved. She also lost 35 pounds. However, Hung Fong only became a Distributor after witnessing her daughter's success as an Herbalife Independent Distributor three years later.

Hung Fong focuses her business on the Chinese community, a community she knows well. She uses Wellness Evaluations, Weight Loss Challenges, samplings, nutrition seminars and recruiting sessions to draw customers and prospects. She works closely with her team to help customers get results. The success of her business has gotten her to the President's Team.

Today, Hung Fong's lifestyle is the opposite of strenuous. She enjoys a good income and takes vacations around the world with her family. She has achieved the American Dream, and perhaps more, as she hopes to reach the Chairman's Club. “Herbalife is truly a blessing,” says Hung Fong.\*†

## Mee Mee Xie & Yan Leong Wong

Mee Mee Xie had a weight problem. She tried various treatments and programs, but nothing had worked. At the age of 18, however, she found Herbalife® products. Her mother had seen an Herbalife ad and suggested she go to a consultation with an Herbalife Independent Distributor.

She began taking the products, and then began to feel more energetic. Her overall health improved, and she lost about 30 pounds. It was then she decided to become an Herbalife Independent Distributor.

Mee Mee learned everything she could about the products and spread the word about them to her friends and relatives, and her community. "I handed out flyers round-the-clock, then waited for inquiring customers," she explains, "and I proudly distributed before and after pictures of myself." She also advertised in various local newspapers, and later, opened a

Nutrition Club where she held Weight Loss Challenges, samplings, nutrition seminars and recruiting sessions.

Now having qualified for the President's Team, she has never felt better about her health and the financial freedom she has gained from her business. She believes strongly in Mark Hughes' vision. Says Mee Mee, "I'm committed to bringing health and wealth to my community."\*\*†
