- Fiber is known to contribute to feeling fuller (satiety)\*

\* These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.

# Thermo-Bond®

## Why is it important?

- Most Americans generally under-consume dietary fiber, and usual intake averages only 15 g per day, while the recommended intake ranges from 20-35 g per day.
- Consuming a variety of fiber sources is important as fibers have different properties that result in different physiological effects.
